

BRAND IDENTITY · VERSION 1.0 · 2026

Practical solutions for real farm problems.

Built with farmers. Proven in the field.

THE BIG IDEA

The difference between a struggling farmer and a productive one is rarely the land or the effort. It is access to the right knowledge, at the right time.

THE PROBLEM

For most smallholder farmers, expert guidance arrives late, generic, or not at all.

Livestock loss

Preventable disease moves through a herd before advice ever reaches the farmer.

Crop failure

Poor input choices and unmanaged conditions quietly erode each season's yield.

Blind decisions

Choices made without information, season after season, with no one to ask.

THE OPPORTUNITY

Every preventable loss is a solvable problem — when expertise reaches the farm in time.

Plush Agri Solutions exists to close that gap: credentialed veterinary and agricultural expertise, delivered on the ground, matched with the quality inputs farmers need to act.

SECTION 01

The Brand Story

Origin · Mission · Vision · Values · Promise

Credentialed expertise, meeting farmers where they actually work.

Founded by **Dr. Rukayyah Abdulsalam** with a team of veterinary and agricultural professionals, Plush Agri Solutions serves farmers raising livestock and those managing crops — for most Northern Nigerian households, one intertwined livelihood, not two. The model is field-first by design.

01

Come to the farm

No remote prescriptions. We assess the conditions in front of us.

02

Build advice around what's real

Guidance shaped by what the farmer actually has and needs.

03

Supply the means to act

Vaccines, biologicals and equipment at fair market prices.

OUR MISSION

To strengthen agricultural productivity — beginning in Northern Nigeria and expanding beyond — through practical, field-based veterinary and agricultural advisory that helps farmers improve animal health, raise yields, manage risk, and make better daily decisions.

OUR VISION

A future where every farmer — from smallholder to commercial scale — has the expertise and quality inputs to run a productive, sustainable farm, building safer food systems and more resilient farming communities.

Four values, built from the field.

Practical

Built from real farm challenges
— field observation, never
textbook assumption.

Productive

Healthier livestock and stronger
yields — directly tied to a
farmer's income.

Trusted

Earned through credentials,
follow-through, and a visible
presence in the field.

Sustainable

Building capability that lets
farmers decide well on their
own, over the long term.

OUR PROMISE

**Built with farmers.
Proven in the field.**

Tare da manoma. An tabbatar a gonar.

SECTION 02

Brand Personality

How we show up · How we speak · What we stand against

The voice of a trusted professional — not a distant one.

01 Direct

Precision without filler. When we recommend something, we state the reasoning.

03 Warm

The farmer is a capable professional who deserves our best information.

02 Expert

Real credentials and field research — authority you feel, never arrogance.

04 Field-Honest

No claim we can't substantiate. When something is uncertain, we say so.

What this brand is not.

Not a distant institution

We don't issue advice from above. We're on the farm.

Not a product pusher

Inputs follow advice — never the other way around.

Not generic

No copy-paste recommendations. Every farm is assessed on its own.

Not unproven

We make no claim we haven't tested against real conditions.

We sound like this.

WE SAY

"Vaccinate before the rains come — here is exactly why."

"Healthy livestock. Higher returns."

"We're not certain yet — here's what we'd check first."

WE DON'T

~~"Optimise your herd health protocols proactively."~~

~~"The market-leading solution for modern agribusiness."~~

~~"Guaranteed results, every time, no exceptions."~~

The words we lead with.

SECTION 03

Visual Identity

Logo · Colour · Typography · Graphic language

03 — VISUAL IDENTITY

One mark, four meanings.

Cattle head The veterinary heritage and livestock at our foundation.

Leaf Crops and agricultural inputs — the other half of the farm.

Field waves Worked ground and the landscapes our team operates in.

Circular badge The authority of something verified, sanctioned and earned.

A logo for every context.

Primary Horizontal
Default. Letterhead, email, web headers, stationery.

Stacked / Vertical
Constrained space, social profiles, narrow banners.

Icon Mark
Favicons, embroidery, app tiles, small-scale tags.

Reversed
On Field Authority green — signage, vehicle wraps, dark layouts.

Clear space & minimum size.

Exclusion zone

Keep clear space on every side equal to the height of the “A” in the wordmark.

Minimum size

Below these thresholds the mark loses legibility — drop to the icon alone.

PRODUCTS

**Vaccines, in
real field use**

04 — THE BRAND IN ACTION

Four platforms. One identity.

Instagram — the visual front door

3–4 / week

Facebook — community & Hausa-first

4–5 / week

LinkedIn — institutional, English only

2–3 / week

YouTube — long-form education

2–3 / month

Five content pillars.

01

Service

Farm visits and bookings — always leading with the farmer's outcome.

02

Education

Practical tips and disease prevention — opening with the problem first.

03

Products

Vaccines, biologicals and equipment — shown in real field use.

04

Credibility

Trainings, partnerships like L-PRES, and documented field outcomes.

05

Community

Farmer spotlights and Hausa-language posts that reinforce our roots.

Stationery & print.

PLUSH AGRI SOLUTIONS

Mafita ga matsalolin noma

In the field & on the road.

Field Uniform

Field Authority polo, mark embroidered in cream on the left chest.

Farm Signage

Green board, cream logo, legible at 20 metres from the gate.

Vehicle Wrap

Cream body, Field Authority door stripe, Growth Green accent.

Photography that is honestly ours.

The rule

Authentic African farming. Real people, real conditions. Never temperate, never clinical, never sterile.

SECTION 05

Who We Serve

From the farm gate to the boardroom — only language and formality change.

Six audiences, one brand.

Smallholder Farmers

Experienced hands without formal advisory access. WhatsApp, visits, bilingual.

Semi-Commercial

Growing operations formalising animal-health and crop management.

Commercial Livestock

Large enterprises needing oversight, risk management and supply.

Cooperatives

Member networks seeking training and bulk input supply via leadership.

Rural Communities

Trust built through presence — leaders, mosques, peer networks. Bilingual.

Development Partners

NGOs, agencies and programmes needing credentialed, field-connected partners.

05 — WHO WE SERVE

Behind every audience is a farmer who deserves our best.

The same quality of guidance the largest agribusinesses take for granted — offered with respect for the experience the farmer already carries.

OUR MANIFESTO

We come to the ground. We see what is really there. We say what is true, and we offer only what we have tested. Healthy livestock. Stronger harvests. Better decisions, season after season.

Practical solutions for real farm problems.

THE FUTURE STARTS HERE

**A productive farm, within
every farmer's reach.**

Built with farmers. Proven in the field.
